AMICard Manager Pro 2.0 is American Megatrends' complete PCMCIA software solution. Not only does it offer powerful drivers and utilities under both Windows*

95 and DOS, it also offers advanced performance under Windows 3.x. AMICard Manager Pro 2.0 is simply the most advanced PC Card software available.

With its new AMICard Manager and generic enabler, AMICard Manager Pro 2.0 delivers a Windows 95 look and feel as well as support for new PC Card standards including DMA, multiple voltage, multi-function cards, enhanced power management and cardbus.

With these new features, dynamic resource detection, and full compliance with the latest PCMCIA and ExCA specifications, AMICard Manager Pro stands out as the superior choice for PCMCIA software.
