

Internal PCMCIA Interface Adapters

- Use all PCMCIA 2.1 compliant PC Cards
- 16-bit ISA controller card
- ExCA-compliant 82365SL controller
- Up to 4 cards in one system
- Available with 3.5" internal drive chassis (5.25" bay adapter available)
- Supports all Intel Flash memory cards
- Supports all PCMCIA 2.1 I/O cards
- Compatible with all industry standard flash file systems

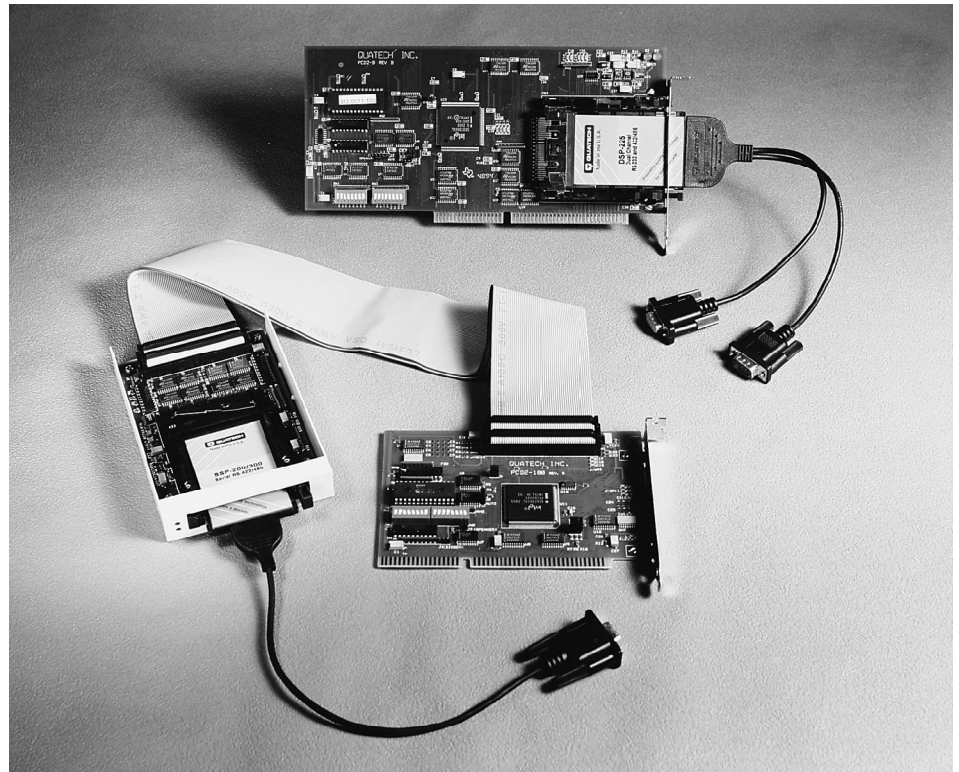

Quatech's internal PCMCIA Interface Adapters (PCD2-F and PCD2-B) allow your desktop computer to access the technology used in laptop, notebook and handheld computers. The adapters utilize flash memory cards, I/O cards such as modems and network adapters, and other memory cards.

SystemSoft CardSoft* Card and Socket Services is optional with Quatech's PCD2-F and PCD2-B. This software includes a DOS configuration manager and the flash file system software.

Each adapter supports all Type I, Type II and Type III memory and I/O cards.

The PCD2-F provides two PCMCIA 2.1-compliant sockets mounted in a front drive bay. The sockets support two Type I or Type II PC Cards in any combination or one Type III PC Card.

The PCD2-B is similar to the PCD2-F except the two sockets are accessed through the rear of the adapter card.

INTEL FLASH MEMORY SUPPORTED:

Series 2 Cards, Series 2+ Cards, Value Series 100 Cards, Series 100 Miniature Cards
