# SwapBox* Classic X2 W95

- Dual slot supports Type I, II & III PC Cards
- Plug'N Play PC AT*-compatible 16-bit ISA bus interface
- Easy installation
- LED indicating proper operation of each slot
- No external power supply required
- Optional SwapFTL* Windows* 95 software drivers

SCM's SwapBox* PnP PC Card adapter is designed for use with Windows 95. The SBI-D2W95 consists of a 3.5 inch drive bay with an integrated PnP PCMCIA controller connecting to the system bus via an AT interface board. The adapter provides full support for all memory and I/O PC Cards and is fully PC Card Standard-compliant and Windows 95-compatible. This model was used by Microsoft to test Plug'N Play in Windows 95. The SCM drivers are included in the Windows 95 software.

An optional Windows 95 version of SwapFTL software to support Intel and all other compatible linear flash cards is available. The SwapBox family of adapters works flawlessly with Intel's Flash memory cards.

INTEL FLASH MEMORY SUPPORTED:

Series 2 Cards, Series 2+ Cards, Value Series 100 Cards, Series 100 Miniature Cards
