

## PILOT-U40

- Universal and flexible. Supports flash memory, PLDs, microcontrollers, etc
- Software controlled from PC or compatibles through standard printer port
- Easy new device support via disk or modem
- Free lifetime software updates via BBS
- Wide range of package types supported: PSOP, SSOP, TSOP and other package standards
- S/W-programmable universal pin drivers
- Gang-expandable with Gang Modules
- Upgradable to PILOT-U84, universal programmer for programming high pin count FPGAs
- Universal 110/230 volt automatic switched AC input
- Made in USA by one of the most dependable programmer manufacturers

PILOT-U40 is expandable to do gang or set programming of eight devices at the same time with Advin-supplied Gang Modules. Available Gang Modules at press time include packages for PSOP, TSOP, DIP and PLCC.

PILOT-U40 is controlled by Advin's easy-to-use and fast software, operating on IBM PCs and compatibles. Since the PC-interface is through a standard parallel printer port, no PC slot is required. Therefore you get the benefit of easy portability from one PC to another. You can also operate Pilot-U40 from a notebook computer via its standard printer port.

Its macro/batch facility allows you to collect frequently used commands in a macro file which can be submitted later for fully automated operations. This and other popular features make the programmer a time-saving instrument for you. They also shorten the training process for your production people.

Advin Systems Inc. has been a dependable and responsive supplier of reliable programming instruments for over eight years. For quality-conscious engineers who need almost instant support when new devices come to market, Advin's small-company, high-quality mentality will fit very well.
