

## Turpro-840

- Gang/set flash programmer
- Eight 40-pin gold DIP sockets, independently bussed
- Ultra-fast programming times for production
- Highly reliable for continuous operation
- All package styles supported via adapters/converters
- 8-Mbit RAM standard, upgradable to 64-Mbit
- Unique auto-sense feature
- Insertion-check, auto erase, blank check, verify
- Lifetime free SW/FW updates via 24-hour BBS

System General's Turpro-840 is a powerful production tool for discrete programming of all Intel Flash memory components. System General works with Intel's Memory Components Division to enable timely comprehensive support of the latest cutting-edge Intel Flash memory components.

By utilizing Intel-recommended third-party converters (Emulation Technology & California Integrated Coordinators Inc.) the Turpro-840 can support all of the latest package styles at an extremely cost-effective price. Use of only approved algorithms insures optimum yields, and System General's dual CPU architecture and patented Auto-Mapping Technology provides for the fastest possible programming times and therefore highest throughput. (When more than 8 sockets are required, a second Turpro-840 can allow for "concurrent" operation.)

Programming can take place via loading data from one to eight master devices, or down-loading from file floppy/hard/network. Easy-to-use engineering features allow for convenient editing of data. Additional capabilities include swap-shuffle-split and even serialization! Optional high/low  $V_{cc}$  verify can help insure board-level reliability. Boot-block

secure features of Intel Flash memory components are handled via pop-up windows to reduce operator error.

A one year HW warranty with calibration certificates/stickers is standard. Downtime is minimized with the industry's fastest turn-around times when maintenance is required. Technical support is available from 8:00am to 6:00pm PST.

### INTEL FLASH MEMORY SUPPORTED:

28F010, 28F001BX, 28F020, 28F002BC, 28F002BL, 28F200BV, 28F002BX, 28F200BL, 28F200BV, 28F200BX, 28F200CV, 28F004BE, 28F004BL, 28F004BV, 28F004BX, 28F004SC, 28F400BL, 28F400BV, 28F400BX, 28F400CE, 28F400CV, 28F008BE, 28F008BV, 28F008SA, 28F008SC, 28F800BV, 28F800CE, 28F800CV, 28F016SA, 28F016SC, 28F016SV, 28F016XD, 28F016XS, 28F032SA
