

## Breadboarding Adapters

- Conversion of SMT packages (PSOP, SSOP and TSOP) into DIP components
- Gold plated phosphor bronze DIP pins
- All breadboarding adapters are stock items

These adapters permit the use of surface mounted packages, such as PSOP, SSOP and TSOP, on breadboards with a 100 mil hole matrix. The adapters have pads to which the package is soldered and a DIP plug. Once the SMT package is attached, the adapter with the SMT devices can be treated as a DIP component for breadboarding as well as for programming. (56-lead TSOP breadboarding adapters are suitable for breadboarding only.) For programming of devices mounted on 56-lead adapters, a 56-pin DIP to 40 or 48-pin DIP adapter is necessary.

Intel Part Number	Package	Adapter Part Number
28F010	32-lead TSOP	32TS/D6-1-SMT/S
28F020	32-lead TSOP	32TS/D6-1-SMT/S
28F001BX	32-lead TSOP	32TS/D6-1-SMT/S
28F002B/C	40-lead TSOP	40TS/D6-1-SMT/S
28F004B/C	40-lead TSOP	40TS/D6-1-SMT/S
28F008B/C/S	40-lead TSOP	40TS/D6-1-SMT/S
28F008B/C/S	44-lead PSOP	44PSO/D6-1-SMT/S
28F016SA/SV/XD/XS	56-lead TSOP	56TS/D9-1-SMT/S
28F016SA/SV/XS	56-lead SSOP	56SSO/D9-1-SMT/S
28F032SA	56-lead TSOP	56TS/D9-1-SMT/S
28F200B/C	48-lead TSOP	48TS/D9-1-SMT/S
28F400B/C	48-lead TSOP	48TS/D9-1-SMT/S
28F800B/C	48-lead TSOP	48TS/D9-1-SMT/S
