

## PCI-932 Intelligent Four Port 100/10BaseTx Ethernet Controller

- i960® Intelligent I/O Processor (IOP)
- Four Independent 10/100BaseTx Ethernet Ports
- Cyclone SNIPE (Server Network I/O Processor Executive) Running on the IOP
  - TCP/IP Protocol Stack
  - Inter-network Routing
  - SNMP Management
  - I/O Control (Ethernet Drivers)
- Windows NT Network Protocol Front End

The Cyclone PCI-932 Intelligent Ethernet Controller provides four 100 Mbit Ethernet LAN connections and an I/O processor (IOP) to off load a WindowsNT host of the network protocol (TCP/IP) processing. The Cyclone SNIPE (Server Network I/O Processor Executive) firmware on the PCI-932 performs time consuming processing usually left to the host processor, while sustaining full network performance.
